This exchange of land covered by the CE looks like a win-win compromise that will allow for further problem solving on the encroachment issue, plus the 5 acres to be included on the Little Thompson are appropriate for CE protection. I support the amendment.

Excellent job on the document, glade to see this issue resolved.

The map of the cabin site locations, is very poorly done. There should be a map of each cabin site showing the problem and the fix.

Dear Fish Wildlife & Parks Commission,  
I support the proposal to amend the Thompson-Fisher CE. I'd like to Thank all parties, Weyerhaeuser, DNRC, and FWP for working this out in a way that looks like a win/win for everyone.
